PROFILE SUMMARY

Tech-savvy and self-motivated, with hands-on experience in IT and cybersecurity. Proven track record in website security upgrades (HTTP to HTTPS) and feature development for client-facing sites. Proficient in Python, network security tools, and cloud services, with the ability to adapt quickly to diverse work environments. Experienced in international IT projects and collaboration, leveraging strong problem-solving skills to deliver effective technical solutions.

WORK EXPERIENCE

Vilmar SA

2024

Marketing Manager & Specialist

- Spearheaded the redesign of the company's support website, enhancing user experience with improved functionality and responsiveness.
- Managed database updates and contributed to the site's migration from HTTP to HTTPS, boosting security.
- Developed a streamlined client issue reporting system and an interface for employees to track and manage customer requests.
- Worked cross-functionally with non-IT teams, delivering solutions tailored to their needs.
- Gained experience in web maintenance, client support, and cross-team collaboration.

Villars city hall

2023

Municipal Groundskeeper

- Collaborated with a team to maintain and improve public spaces, including parks and green areas.
- Assisted in landscaping tasks such as mowing, pruning, and clearing debris to ensure the safety and cleanliness of municipal areas.
- Supported basic repairs and maintenance of city infrastructure, contributing to the overall aesthetic and functionality of public spaces.
- Worked efficiently with colleagues to meet daily objectives, fostering a team-oriented environment.
